

Créer un animal – 4^e année

Tu es un zoologiste qui a découvert un nouveau type d'animal. Tu dois partager ton nouvelle découverte au monde. Crée une fiche d'information pour montrer le nouvel animal et son habitat.

Tu dois inclure tous ces informations :

À remettre le 17 décembre

- Le nom de l'animal
- La description physique
- Description de son habitat (les plantes, le sol, les autres animaux, etc.)
- Une chaine alimentaire qui inclut ton animal
- Une adaptation de l'animal pour l'aider à survivre
- Une image qui montre l'animal dans son habitat naturel

	Level 1	Level 2	Level 3	Level 4
Content	Many necessary elements are missing.	Most necessary elements are included.	All necessary elements are included.	
Representation of the animal in its natural habitat. Habitat is logical for the type of animal.	Drawing does not represent the habitat, and/or the habitat is not logical for the type of animal.	Drawing begins to represent the habitat. Habitat is not completely logical for the type of animal.	Drawing represents the animal in its habitat. Habitat is logical for the type of animal.	Drawing shows an excellent representation of the animal in its habitat. Habitat is very logical for the type of animal.
